Corrigendum to 'OBA2: An Onion approach to Binary code Authorship Attribution' [Digit Investig 11 (2014) S94–S103]

Saed Alrabaee*, Noman Saleem, Stere Preda, Lingyu Wang, Mourad Debbabi

National Cyber Forensics and Training Alliance Canada, Computer Security Laboratory, Concordia University, Montreal, Canada

The authors state that, Algorithms 1 and 2 (on page 5), together with their explanations, were not correctly cited in the original article. The Algorithms are borrowed from the authors previously published work (which is a Master thesis co-supervised by Dr. Mourad Debbabi and Dr. Benjamin Fung).

The correct citation for Algorithms 1 and 2 is listed below;

Farhadi, MR. Assembly Code Clone Detection for Malware Binaries [Master thesis]. Québec: Concordia University; 2013. Available at: <http://spectrum.library.concordia.ca/977131/>.

The authors would like to apologise for any inconvenience caused.
